ALUMINIUM RAILING SYSTEM

www.vegnararch.com

About Us

Vegnar Hardware is a dynamic, Rajkot-based manufacturer specializing in the premium segment of architectural hardware and modular Railing Systems . Established with a commitment to excellence, we aim to deliver products that combine superior craftsmanship, durability, and modern design. Since our inception,

Vegnar has adhered to stringent international quality standards, ensuring our products meet global technical benchmarks. Our products are crafted by skilled professionals using premium-grade raw materials. Each product undergoes rigorous quality testing to ensure flawless performance, durability, and aesthetic appeal.

Spigot System

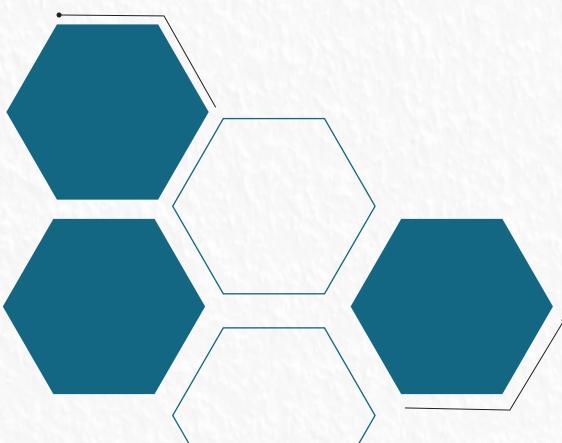

vegnar
Engineered for Elegance

VSS-40

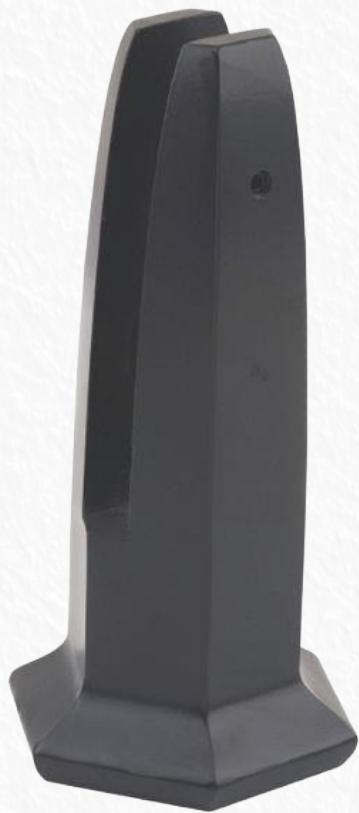

Vegnar aluminium half baluster with routel can be used in both interior & exterior application, where the glass must have a space between the floor and the lower edge of glass. This railing system has two balusters to hold each glass panel.

The glass is hold up off of the ground by routels connected to the post. Each baluster must have a solid surface to drill down each post's base into the floor in order to support the railing. Vegnar aluminium half baluster is a very new and unique concept with multi coating option.

| Spigot System

vegnar
Engineered for Elegance

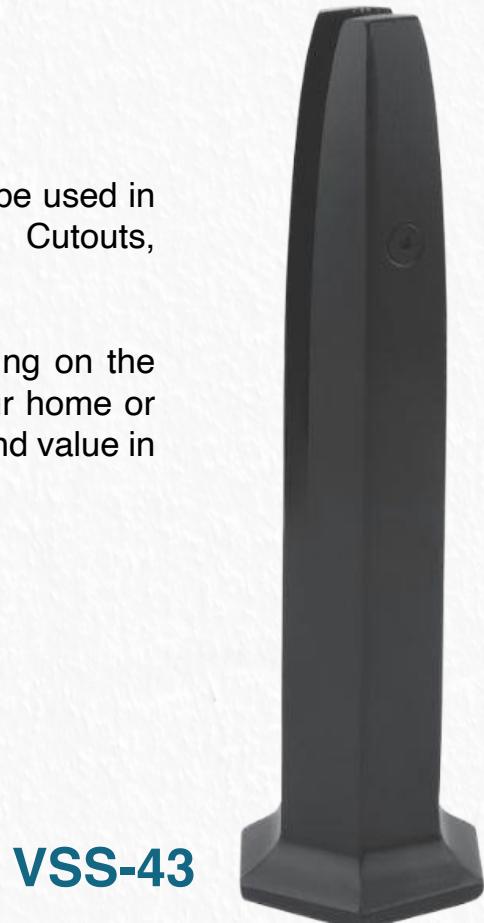

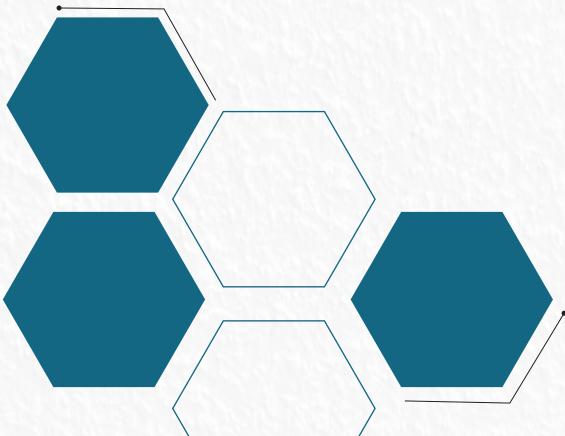

VSS-41

VSS-42

Vegnar aluminium top mount spigot glass railing system can be used in both exterior and interior application such as Balconies, Cutouts, Terrace, Staircase etc.

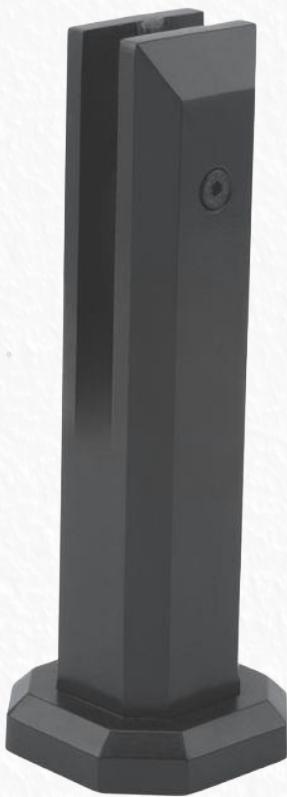

This spigot can be core drilled on surface mounted depending on the application. By installing a new frameless glass railing in your home or commercial property, you are sure to bring that modern look and value in your property.
